

Use our “Household inventory list template” to manage your household inventory list.

The table is divided into blocks according to location; they have corresponding captions on a yellow background in the title.

By default, these blocks are grouped and may look like a list of rooms in a household. To ungroup them, you need to click on the “+” sign to the left of the line name; to group them back; you need to click on the “-” sign in the same way.

No	Item	Description	Type	Model
2				
3		<b>General Household Equipment &amp; Electronics</b>		
19		<b>Living Room</b>		
35		<b>Dining Room</b>		
51		<b>Bedroom</b>		
67		<b>Kitchen</b>		

The table contains 11 columns that need to be filled in:

No	Item	Description	Type	Model	Serial number	Date purchased	Quantity	Unit price	Total price	Place of purchase
----	------	-------------	------	-------	---------------	----------------	----------	------------	-------------	-------------------

- “No” - in this column, enter the ordinal of the inventory in this block (by default, each block contains 15 lines to fill in);
- “Item” - in this column, enter a brief description of the inventory (for example, Air Conditioner);
- “Description” - in this column, enter an extended description of the stock you are listing (for example, Royal Sovereign);
- “Type” - in this column, enter the value of the type of inventory for each of the positions (for example, Furniture or Electronics);
- “Model” - in this column, enter the name of the model of each of the items in the inventory (where possible, for example, the model of a sofa or a hair dryer);
- “Serial number” - in this column, enter the value of the serial number for the inventory (if any);
- “Date purchased” - in this column, indicate in the format **mm/dd/yyyy** the date of purchase of each item/product;

- **“Quantity”** - in this column, for each item, enter the number of purchased identical products;
- **“Unit price”** - in this column, enter the cost of acquiring a unit of the product;
- **“Total price”** - this column automatically calculates the total amount of the purchase of identical products;
- **“Place of purchase”** - in this column, enter the names of the store/warehouse where you purchased this item/product.

An example of filling a table:

No	Item	Description	Type	Model	Serial number	Date purchased	Quantity	Unit price	Total price	Place of purchase
